**Subject:** ACTION: Review draft WL email for state and local

Here's the draft email to go out from Karl to state and local officials announcing the USACE IAG. Please review so we can distribute it at 2:30 today.

EPA Region 7 and the U.S. Army Corps of Engineers (USACE) have established an interagency agreement outlining four tasks under which the Corps will provide assistance to EPA as the agency oversees the approaching construction of the isolation barrier at the West Lake Landfill Superfund Site. The isolation barrier will be placed on the West Lake Landfill portion of the site, EPA will be the lead agency to oversee its construction. The agreement between our Agency and the Corps became effective April 15, 2014.

**Technical Assistance** – Efforts related to technical assistance and project initiation, management and support, including reviewing and commenting on various documents, reports and data; participation in discussions and negotiations; coordination of staffing and support activities; tracking and monitoring of costs and performance; and accommodation of external audits or reviews that EPA may require.

**Design Review** – Includes providing reviews and comments on plans and preparations submitted at various stages of the project by the PRPs, including design plans and work plans, such as a waste handling and disposal plan, water management plan, and health and safety plan.

**Pre-Construction and Construction Observation** – Includes daily observation of pre-construction and construction activities, and reporting on those activities to EPA on a daily basis. Reported observations will cover the adequacy of preparations, compliance with applicable plans, sequencing of operations, and any activities that may impact the effectiveness of the isolation barrier.

**Community Relations Support** – Corps staff will attend and participate in Community Advisory Group (CAG) meetings, and other public meetings and public availability sessions, as requested by EPA. Corps staff will assist EPA in explaining tasks and evaluations performed by the Corps.

A copy of the interagency agreement is attached.

Please do not hesitate to contact me at 913-551-7006 or you may call Sarah Hatch, Government Liaison, at 913-551-7199.
